***Baptisia 'Twilight Prairieblues'*<sup>TM</sup>, No.1** – A real eye catcher, this vigorous grower creates a 4-5' mound of bushy foliage that is topped with spikes of violet-purple and yellow pea-like flowers in spring. Attractive foliage with budded stems.

***Coreopsis 'Tequila Sunrise'*, No.1** – It's another... season for the cream and green variegated foliage and bright yellow blooms. Full and budded!

***Dianthus 'Frosty Fire'*, 1 qt. & No.1** – Cherry-red blooms are popping above the frosty blue-green foliage!

***Festuca 'Cool as Ice'*, No.1** – Try this blue fescue with *Dianthus 'Frosty Fire'* for a 'cool' combination!

***Galium odoratum*, No.1** – A superb ground cover for shade with whorled green leaves and tiny white flowers in spring. Nice!

***Heuchera 'Caramel'*, No.1 & No.2** – Gorgeous in light shade where dappled sunlight enhances the rich apricot foliage. Pretty in the pot too!

***Pycnanthemum muticum*, 1 qt.** – The fragrant foliage of native mountain mint is topped with pinkish-white flowers and shimmery bracts in summer. A must have for the butterfly garden or to attract beneficial bees.

***Salvia 'Blue Hill'*, No.1 & No.2** – Full-in-the-pot with budded spikes that are soon to reveal lovely blue long-blooming flowers.

***Thymus 'Pink Chintz'*, 4" pot** – Attractive fuzzy foliage with tiny pink flowers is ready to cover some ground, spill over walls or containers, or fill cracks and crevices.

***Ursula's Red Fern*, No.1** – Fronds of maroon and silvery-green are unfurling in the pots. Pretty slick!

## ***Budded and/or Blooming***
