***Achillea 'Pomegranate'***, No.1 – Flat clusters of buds are starting to show color above the full, fresh foliage. Long blooming, bright fruity red blooms make a great addition to the sunny border or cut flower garden.

***Astilbe 'Montgomery'***, No.1 & No.2 – Deep red buds and blooms look fantastic next to the dark green glossy foliage!

***Brunnera 'Looking Glass'***, No.1 – Ready to add a silvery glow to the shade garden. Full and nice!

***Coreopsis 'Zagreb'***, No.1 & No.2 – Go with the golden yellow blooms that cover the dense mounded thread-leaf foliage and you will never miss 'Moonbeam'! Budded and busting out of the pots.

***Heucherella 'Redstone Falls'***, No.2 – Spreading or cascading peachy to bronze red foliage mixes well in containers or in the shade garden with contrasting greens, blues and yellows. Pretty alone in the pot too!

***Ostrich Fern***, No.1 – This northern North American native fern can cover a lot of ground with its upright ostrich feather-shaped fronds. A good looking crop ready for planting!

***Stokesia 'Peachie's Pick'***, No.1 – Attractive upright foliage is filling the pots and forming buds. A real charmer when the lavender-blue frilly flowers unfold.

## ***Budded and/or Blooming***

***Achillea*** 'Moonshine' & 'Paprika'; ***Astilbe*** 'Deutschland' (No.2), 'Hennie Graafland', 'Rheinland', 'Sprite' and 'Visions'; ***Chrysogonum*** 'Superstar'; ***Dianthus*** 'Kahori' (qts); ***Eupatorium coelestinum***; ***Geranium*** 'Ingwersen's Variety'; ***Hemerocallis*** 'Bonanza', 'El Desperado', 'Gail's Fragrant Treasure', 'Happy Returns', 'Little Grapette' & 'Purple D'oro'; ***Liatris*** 'Floristan White'; ***Salvia*** 'Snow Hill'; ***Sisyrinchium*** 'Lucerne'; ***Spiraea*** 'Magic Carpet'; ***Tiarella*** 'Fancy Trails'.
